

Club Manager Report – June, 2017

1. Calendar

The unit events calendar through the end of the year (June through September) has been completed, with Unit buy-in, and published on the unit web site

2. Directors are now posting session hand records on the web site.

3. A massive BridgeMate system update is in the offing and will be accomplished in two sessions: Thursday, 6/15, the system at K/SAS will be updated with the system at CM following on 6/17. The update affects the BridgeMate Control system, the USB communications software (PC to BridgeMate server), and the BridgeMate II scoring units (remote handhelds).

4. Locker – The 'new' locker has been installed and is dubbed the 'Unit locker'. It is not so wide as to impede access to the roof. It will house all the unit stuff; hopefully preventing the problem the unit is now facing from recurring, i.e., sectional tournament supplies are missing. The handles have been removed from the doors to allow keys to be made for them.

6. Sectional – The Salem sectional this month, June 23-25. Accordingly, there will be no club games on June 23 and June 24.

7. Jerry Gordon is doing well during his quest to become a club director. He will direct the 6/20 session and then, hopefully take the director test.

8. Gayle – Gayle has served out the imposed suspension and is now directing the NLM and Friday PM games again.

9. Barometer Game – now targeted for August 15. ACBLScore supports this type of movement so the burden on the director(s) is less than previously. Flyers will be posted on the website and in the K/SAS playing area on July 18.

10. Pro-AM game to be held September 26. Flyer will be posted online and in the K/SAS playing area August 19. It will be announced at the CM sessions starting September 6. Sign-up sheets will be present at both locations.

11. It has come to my attention that a director told a club member to "leave and don't come back" when that player had committed no offense to warrant any discipline at all. Evidently the player was slow. I invited the player to play in the 06/02 Friday session. The player kept up just fine; was no problem at all, and finished each round ahead of more than half the field. This issue requires some discussion among board members so a clear understanding is achieved.
